

# Wings & Wheels Festival of Flight

## On September 10th, 2022

Fox Valley Aero Club is joining forces with Lamborghini Club America.

On Display for our special “Wings & Wheels” Air and Car Show will be RC Aircraft and limited production Lamborghini Sports Cars. These planes and cars represent years of scientific research into the use of active aerodynamics, high horsepower, and the ultimate in pilot control through minimal effort.

Club President Dale Gathman asks: “Wings can cause lift or can cause down force. When you are at our event, see if you can find the wing on the Lamborghini and what it does? Does it help make the car fly?”

Jim Thompson, the coordinator for the Festival of Flight, states: “At this year’s Wings & Wheels Air Show you will see RC Foamies and Fighters, 3D Stunt Planes, Flying Lawn Mowers, and Cars flown by the finest local RC pilots demonstrating their amazing flight skills. You will get to see over 100 RC Scale Aircraft and get to enjoy an unusual grouping of about 20 exotic/sport cars.”

Imran Hasan, a member of both clubs and organizer for the Lamborghini Car Cruise, states: “When you fly an RC Plane and start to understand the aerodynamics of a scale jet, you appreciate more the active aerodynamics and research that has gone into a Lamborghini. You get to feel the G force when you accelerate and feel how the rear wing is used to improve how the car handles.”

In addition to all day Air Demonstrations and Car Show there will be a noon time Air Show full of fun surprises, aviation details and RC history. You will see Giant Scale Jets and Giant Scale Warbirds with wings 10 feet or greater with some flying at over 100mph.

There is a spectator entrance fee of \$5 per adult. Children ages 12 and younger are free. Seating is available, but spectators can bring their own chairs if desired. Concessions will be available. Fox Valley Aero Club field is located near the intersection of Route 38 and Peck Road. The event is from 9am to 5pm on September 10th.

Fox Valley Aero Club, 3831 Karl Madsen Drive, St Charles Illinois
